Professional Summary

Motivated and detail-oriented MERN Full Stack Developer as a fresher with a strong foundation in MongoDB, Express.js, React.js, and Node.js.

As I' am Fresher built responsive web applications through academic and personal projects. Proficient in JavaScript (ES6+), RESTful APIs, and component-based frontend development. Familiar with state CRUD operations, Knowledge of database design, schema modeling, and backend integration. Comfortable using Git, GitHub, and basic deployment tools. Strong problem-solving ability with a passion for learning new technologies. Seeking an entry-level developer role to contribute to scalable and user-focused applications.

Technical Skills

- **Technical Tools:** React.js for Landing Pages SPA, JavaScript for Build Dynamic web applications, SQL for Handling Data in Tables , HTML/CSS for layout and styling.
- **Programming Languages:** Python for programming and Node js Framework of Epress JS , .Mongo DB Document Database CRUD Operations
- **Technologies:** Node JS, Express JS, for Server, MySQL and Mongo DB for Document Database
- **Core Competencies:** Problem-Solving, Git $ Github Repos Quick Learning, Technical Communication

Projects Worked

NXT TRENDZ | REACT JS HTML CSS   MAY 2025 – JUL 2025

I have developed the frontend part of the **Nxt Trendz** online shopping application, which is similar to Amazon. I developed it using **React** in a week. My primary focus was on building the frontend part of the application. This application allows users to log in, search, sort, filter, select products, and add them to the shopping cart. Nxt Trendz is a modern e-commerce platform designed to provide a seamless online shopping   experience with a wide range of fashion and lifestyle products. It offers an intuitive interface that combines convenience, style, and functionality for today's digital shoppers.
I implemented a **basic authentication flow** and handled common errors such as **invalid username** and **invalid password**. I used **cookies** to persist user credentials across page reload

FOOD MUNCH |HTML, CSS JS   OCT 2025 - NOV 2025

 Food Munch is a responsive food ordering website developed as part of the NxtWave curriculum.
The project focuses on creating an attractive and user-friendly UI using HTML, CSS, and Bootstrap.
It includes multiple sections such as Home, Why Choose Us, Explore Menu, and Contact Us.
The website is designed with a mobile-first approach to ensure responsiveness across devices.
Bootstrap components like navbar, cards, and grid system are used for layout consistency.

Custom CSS is applied to enhance visual appeal and branding.
Smooth navigation is implemented using anchor links and buttons.
Food Munch demonstrates strong frontend fundamentals and UI design skills.

MINI GAMES | FRONTEND, REACT JS   FEB 2025 - MAR 2025

Mini Games Collection is a web-based project consisting of multiple interactive games developed for learning and entertainment.The project includes simple games such as Number Guessing, Tic-Tac-Toe, and Rock-Paper-Scissors. HTML is used to structure the game interfaces and layout.
CSS is applied for styling, animations, and responsive design.JavaScript handles game logic, user interactions, and real-time updates.DOM manipulation is used to update scores and game states dynamically.Event listeners manage user inputs such as clicks and key presses.Basic algorithms and conditional logic control game flow and results.
The project showcases strong fundamentals in JavaScript and frontend development.

Education

CCBP INTENSIVE 4.0 TECH PROGRAM	**2025 Present**
MERN Full Stack Development	
GRADUATION – BSc (Data Science)	**2021-2024**
Vaageshwari Degree & Pg College, Karimnagar | Satavahana University	
INTERMEDIATE - MPC	**2019-2021**
Sri Venkateshwara junior College, Karimnagar	
SSC TS Model School, Julapally	**2019**

Certifications

- **NXTWAVE CCBP** - JavaScript Essentials Foundational for marketing automation and web analytics implementation

- **NXTWAVE CCBP** - Databases SQL expertise for customers data and Mongo DB Document Database

- **CISCO Networking Academy** - Programming Essentials in Python

- **NXTWAVE CCBP** – NODE JS framework of Express JS build Server side logics

- **ORACLE ACADEMY** - Database management for customer relationship and marketing data systems

Key Strengths

- Strong foundation in **MongoDB, Express.js, React.js, and Node.js** with hands-on project experience

- Proficient in **JavaScript (ES6+)**, REST APIs, and component-based frontend development

- Good understanding of **CRUD operations**, database schema design, and backend integration

- Quick learner with strong **problem-solving skills** and ability to adapt to new technologies
